

Warranty period and Service range

Notes to Users in Placing Orders

Thank you very much for favoring OJIDEN products, Unless otherwise specified in quotation, contracts, catalogues, specifications, the following provisions shall be applied when quoting or ordering our products.

We request you to make a receiving inspection for the delivered product as soon as possible, at the same time ask you to take good care to properly maintain the delivered product even before the receiving inspection.

Warranty Period and Range

[Warranty Period]

The warranty period shall be one year from the date of delivery of the product to the place specified by the customer.

[Warranty Range]

If the product failure occurred during the above-mentioned warranty period, for which OJIDEN is responsible, we will replace or repair the faulty part of the product on our responsibility. However, the following shall be excluded from the warranty range.

- (1) Malfunctions caused by improper handling or use by the customer
- (2) Malfunctions caused by factors other than the delivered product
- (3) Malfunctions caused by modification or repair made by person other than OJIDEN personnel
- (4) Malfunctions caused by incorrect use other than intended
- (5) Malfunctions that cannot be foreseen in terms of the scientific and technical levels at the time of delivery
- (6) Malfunctions due to natural disasters for which OJIDEN is not responsible (Force majeure)

The warranty mentioned here covers the delivered product only; it does not cover any damage caused by failure of the delivered product.

Service Range

The price of products does not include service costs of delegating engineers. Additional expenses are required for the following.

- (1) Installation guidance and attendance at a trial run.
- (2) Maintenance, adjustment and repair.
- (3) Technical guidance and technical training.

◆ Products and services covered by the ISO 9001 system certification
